HI 98501 **Checktemp®**

Digital Thermometer with Stainless Steel Penetration Probe

The Checktemp® delivers high accuracy temperature measurements over a wide temperature range without worrying about breakage or condensation.

The Checktemp® offers NO breakage, NO waste, NO injuries and NO difficulty in reading; the digital display prevents a parallax error (observing the wrong measurement due to the angle of view) and is optimized for a wide range of environmental temperatures.

Checktemp® is provided with Hanna's unique CAL CHECK™ function for accurate measurements every time. The Checktemp® implements a CAL CHECK® upon startup and reports the status as 0 or Err.

The sharp-tip probe of the Checktemp® easily penetrates semi-solid products making routine temperature checks simple and quick for both incoming and outgoing goods. Checktemp® is the ideal instrument for measuring temperature according to HACCP requirements.

- **CAL CHECK™**
  - Automatically verifies calibration at startup and alerts the user of the calibration status.

- **Large display**
  - The large display features a wide environmental temperature range and viewing angle.

- **IP 65 water resistant protection**

- **HACCP**
  - Use as a tool for control in HACCP analysis.

- **AISI 316 stainless steel penetration Probe**

- **Easy battery change**
  - Easily replace the battery.

- **Save battery life with Auto-Off**
  - With the Auto-Off feature, select from 8 min., 60 min., or turn the feature off.

- **Protective probe sleeve included**
  - Protect the probe when not in use.
